THEME & PROBLEM STATEMENT

Health Care Technology

👩‍🦳PROBLEM WE ARE SOLVING 📌

India's aging population is rising — **150+ million elderly citizens.**
Yet, they're the most overlooked in the digital age.

⚠️**The Gap Existing** solutions are **either too complex or too fragmented**.What they need is one caring, simple, all-in-one platform.

🎯**Sahyog AI** is built to be that trusted companion - **Bridging health, safety connection and compassion.**

Daily Challenges They Face

Missed medications & appointments

Emotional isolation & loneliness

Delayed help during emergencies

The GapExisting solutions are either too complex or too fragmented.

Family unaware of real-time health status
